RedMane is the Specialized Software Source

Specialized software breeds business success—with applications tailored to specific needs playing major roles in corporations, government agencies, and nonprofit organizations in every corner and business sector of the planet. But where can you go to find a reliable source for specialized software solutions? To find an application development firm with a passion for excellence and a rock-solid reputation? To find a company whose guiding stars are quality and client satisfaction?

The answer is “here.”

Whether you need an application created from scratch or to modernize and extend the life of tried-and-true legacy software, RedMane has the knowhow and experience to get the job done right—on time, on budget, and to your complete satisfaction. Our software **services** are designed to meet a wide variety of business needs, from **strategic business discovery** and **solution integration** to **custom development** and **modernization-and-transformation**, and we provide deep domain expertise in a wide variety of business **practices**, including **human services**, **healthcare**, **insurance**, and **education**.

Knowhow. Experience. Integrity. Passion for excellence. Commitment to quality. Devotion to customer service.

That’s RedMane.
