## SERVICES

“RedMane has a reputation for getting down to brass tacks and delivering.”

Ed Driesse – State CIO, State of Louisiana

When you hire RedMane, you get more than a software development provider—you get a partner in helping your business succeed. Our services include everything from performing **strategic business analysis** to **integrating commercial off-the-shelf software packages**, **developing custom software**, and **modernizing and transforming** underperforming legacy systems. All of these services are built on a project-based engagement model that uses our time-tested, scalable project-management and application-development methodologies that ensure the successful completion of any project—on time, on budget, and to the complete satisfaction of the client.

We invite you to look over our extensive menu of services.

Then contact us and let us know what we can do for you.
